

EFC Systems DigiCheque is a user-definable image capture, archival and retrieval system which supports both single feed and batch scanners. DigiCheque captures item images, allows for data indexing and exports data and images to other applications. By permitting users to configure the application with user-defined fields, you have the perfect imaging solution. With DigiCheque, you get the best of both worlds: a high value solution with an affordable cost!

- User definable fields allowing customization of the application
- Full User Security
- Document endorsement available with specific scanners
- Batch index allowing user defined scan groups

- Data Validation
- Import Validation Information from other applications or databases
- MICR Reader Functionality
- Export data and images to other applications

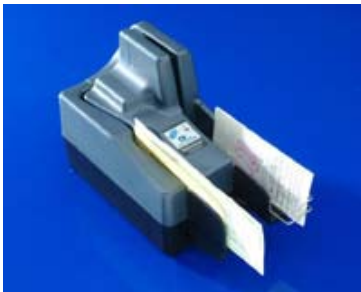

- Archive to multiple media locations
- Quick editing of document information
- Search and filter options for easy retrieval of documents
- Available in English, Spanish and Portuguese

Teller Scan 350/400:

- Batch Scanning—up to 90 checks per minute
- Duplex scanning
- MICR reader: E13B
- Image Formats: Group IV-TIFF, JPEG
- 80-100 Item Check Feeder
- Optional Ink Jet Endorser
- SCSI Connection
- Two Enhanced Output Pockets
- Duty cycle: 8,000-12,000 checks per day
- Useful Life: 20,000,000 checks
- Unit Size: 12.75" (l) x 7.25" (w) x 7.50" (h)

Teller Scan 400

Teller Scan 230

Teller Scan 230:

- Batch scanning- 65 or 100 checks per minute
- Duplex scanning
- MICR reader: E13B
- Image Formats: Group IV-TIFF, JPEG
- USB2 connection
- Optional Ink Jet Endorser
- Duty Cycle: 2,000-3,000 checks per day
- Useful Life: 10,000,000 checks
- Unit Size: 8.6" (l) x 5.1" (w) x 6.6" (h)

System requirements: Windows 98/2000/NT/ME/XP, Windows Installer, 800x600 screen resolution, Pentium II- 350 MHz, 64MB RAM. TS350/400e scanner models require an Adaptec 2930 SCSI card (ASPI layer 4.70 or higher.)
