

EFC Systems, Inc
3026 Owen Drive, Suite 101
Nashville, TN 37013-2417

Job posting: VB/C#.Net Application Developer
Salary: Depends on individual abilities and contributions
Benefits: Attractive paid time off, 401k, medical, certification reimbursement & more
Hours: Mon. – Fri. 8:00am – 5:00pm

Responsibilities:

EFC Systems has an immediate need at for experienced Application Developers to work with a team of developers to author quality software products that support business initiatives in a .Net environment. Both senior and mid level candidates should apply who have solid SQL knowledge (Microsoft SQL Server T-SQL) and have a minimum one-year experience with Microsoft VB.NET or Microsoft C#.NET. A background in financial and/or banking applications is preferred. Multiple openings are available and will be based out of our Nashville, TN office.

EFC Systems has been in business since 1988 and provides a variety of technology services and applications to corporate and educational clients. EFC Systems also authors third generation financial applications that address the largest change to hit the banking industry in the last twenty years. The fast-paced, entrepreneurial culture of EFC Systems requires dynamic, motivated and enthusiastic individuals who work well independently and/or as part of a team.

If you enjoy fast paced development teams where creativity is encouraged, please email resume, salary history and requirements to mmoore@efcsystems.com as we are immediately conducting interviews.

Required Skills/Characteristics:

- Excellent customer service, time management and the ability to research/troubleshoot issues while providing high levels of enthusiasm to support clients in a fast-paced, dynamic work environment.
- The ability to work in a team environment and to become a valued member of the team by offering a great work ethic and high levels of integrity.
- We need an individual that is ready to make things happen and anticipate the needs of our clients and teams.
- Minimum of one year experience developing business application using Microsoft VB.NET or C#.NET and Microsoft SQL Server.
- Crystal Reports and Infragistics experience is a plus.
